THE HONORABLE EDWIN W. EDWARDS
GOVERNOR OF LOUISIANA
MEMBERS OF THE LOUISIANA LEGISLATURE
MEMBERS OF THE STATE BOARD OF
ELEMENTARY AND SECONDARY EDUCATION

In accordance with the provisions of Louisiana Revised Statutes 17:22(6), I respectfully submit to you this One Hundred Thirty-Sixth Annual Statistical and Financial Report.

We hope that these statistical data, collected by and submitted to the Bureau of Research, Office of Research and Development, by the local systems, various sections within the Department of Education, other governmental agencies and various nationally based organizations will provide useful information for you and your respective offices.

Sincerely,

Thomas G. Clausen

Thomas G. Clausen

Preface

> Knowledge is of two kinds: we know a subject ourselves, or we know where we can find information upon it.

One of the prime functions of the Bureau of Research in the Department of Education is to compile, analyze, and disseminate statistical and financial data relative to all aspects of elementary/secondary education in Louisiana.

In this endeavor, the Bureau of Research within the Louisiana Department of Education has compiled this 136th Annual Statistical and Financial Report for the 1984-85 school year.

It is hoped that this reference document will serve as a valuable, relevant, and timely source for information and provide the knowledge necessary for making informed decisions about education in our state.

The Bureau of Research is appreciative of the cooperation received from persons in the local school systems, the Department of Education, other state agencies, and nationally based governmental and private agencies.

[a] The Bureau of Research depends on the voluntary reporting of nonpublic student registration by the nonpublic schools in the districts. In some cases, these nonpublic schools may not report data, resulting in an undercount of nonpublic students.

[b] Four districts (Allen, Franklin, Tensas, and Washington) reported at least one nonpublic school, but no nonpublic students for the 1982-83 school year. Ouachita Parish did not receive accurate data on the number of nonpublic students from its nonpublic schools for 1982-83. Therefore, no nonpublic students from these districts are included in the compilation of the totals for this year.

[c] Three districts (Franklin, Tensas, and Washington) reported at least one nonpublic school, but no nonpublic students for the 1983-84 school year. No nonpublic students from these districts are included in the compilation of the totals for this year.

[d] Four districts (Franklin, Sabine, Tensas, Washington) reported at least one nonpublic school, but no nonpublic students for the 1984-85 school year. No nonpublic students from these districts are included in the compilation of the totals for this year.

[e] 1979-80 was the first year that districts were asked to report the number of Hispanic, American Indian and Asian students who were registered in their schools. Some districts noted difficulty in reporting this information, so there is probably an undercount of students from these ethnic groups for this year.

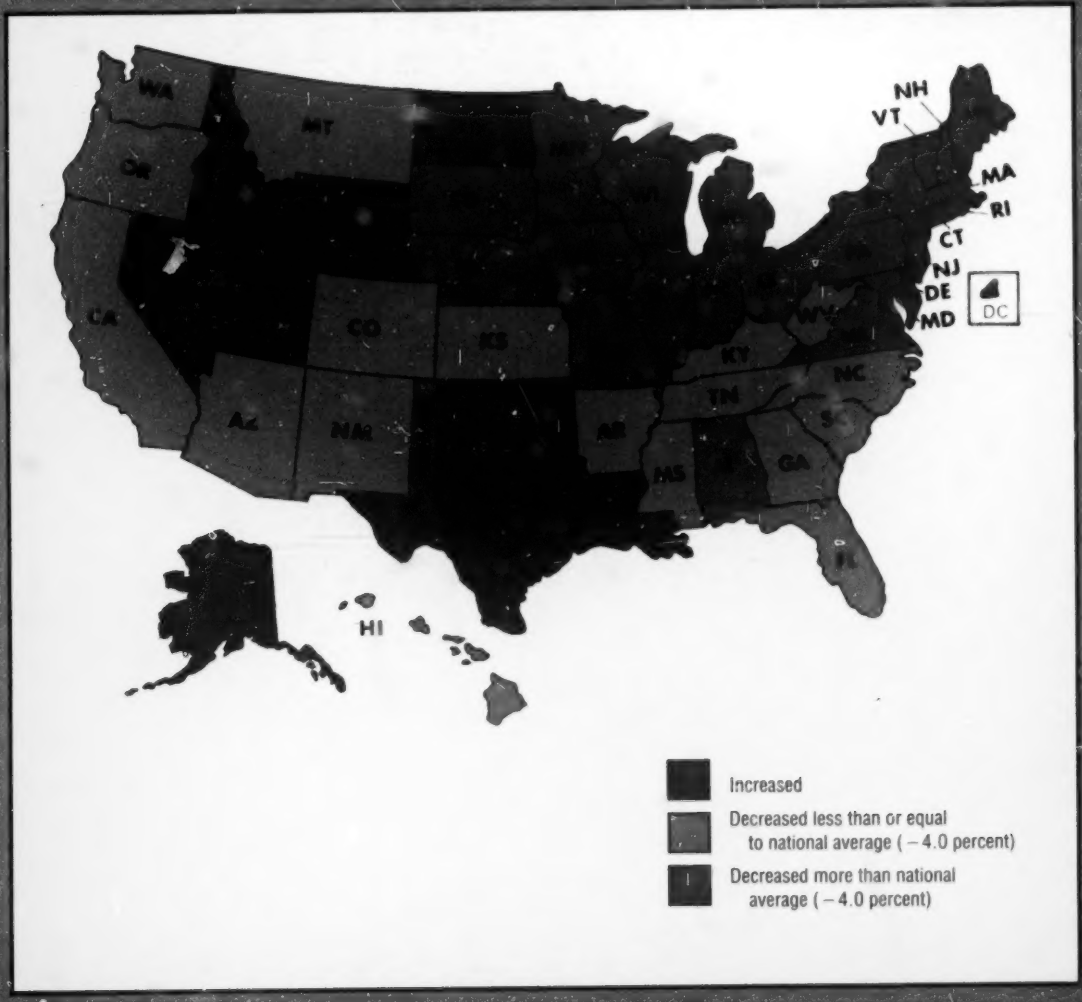
[a] The Bureau of Research depends on the voluntary reporting of nonpublic student registration by the nonpublic schools in the districts. In some cases, these nonpublic schools may not report data, resulting in an undercount of nonpublic students. The actual registration data for 1984-85 for both public and nonpublic schools do not include kindergarten or special education students.

[b] The projections for 1985-89 were made by Mr. Larry Goux of the Louisiana Board of Regents. The projections exclude kindergarten and special education students.

Figure 2.6 Percent Change in Public Elementary/Secondary School Enrollment Between 1978 and 1983, by State



Between 1980 and 1983, public school enrollment declined by 4 percent nationally. Most of the largest declines were in the Northeastern and North Central States. States in the South and West generally had smaller declines than the rest of the Nation.

[a] The Bureau of Research depends on the voluntary reporting of nonpublic graduates by the nonpublic schools in the districts. In some cases, these nonpublic schools may not report data, resulting in an undercount of nonpublic graduates.

[b] Includes graduates from summer and midterm.

[c] 1979-80 was the first year that the districts were asked to report the number of Hispanic, American Indian and Asian high school graduates. Some districts noted difficulty in reporting this information, so there is probably an undercount of graduates from these ethnic groups for this year.

GED recipients comprised approximately 15 percent of all public high school completions in school year 1979-80. Their representation among completions ranged from 32 percent in Alaska to under 2 percent in Utah.

In 1983, 22 States used or expected to use minimum competency testing for high school graduation, and another 18 States used it for other purposes.

[a] Source: Dropout data reported here were collected by the Bureau of Student Services in the Louisiana Department of Education. Enrollment data from which percentages were calculated were taken from Annual Reports of the Louisiana Department of Education. The percentages were calculated by the Louisiana Department of Education.

[b] Dropout data for 1980-81 were not available for Natchitoches Parish. Registration data from Natchitoches Parish were not included in calculation of the percent of total registration who drop out.

[c] From 1973-80, dropout and registration data were reported by white and black categories only. From 1980-82, dropout data were reported by white and black categories, while registration data were reported for five different ethnic groups. The sum of the percent of registration for these two years does not equal 100 percent in this table, because some of the registered students were classified as other race. Starting with 1982-83, both dropout and registration data were reported for five different ethnic groups, and the data reported here were divided into white and nonwhite categories.

[d] A new computerized system for reporting dropout data was implemented by the Bureau of Student Services in school year 1982-83. Some districts experienced difficulty in converting from the old manual system to the new automated one. This may have resulted in an undercount of dropouts in some districts for school year 1982-83. For example, Winn and Caldwell parishes reported no dropouts for 1982-83.

[e] According to the Bureau of Student Services, six districts (Caddo, Caldwell, East Baton Rouge, Franklin, Vernon, and Winn) reported dropouts after the cut-off date for reporting. These late reports constituted 3,040 of the 12,337 dropouts (24.6%). The Bureau of Student Services did not require these districts to report the ethnicity of the dropouts in these late reports, so the partial ethnicity data will not be reported here.

[a] Experience of principals and teachers was reported by the districts in 1979-80 in the following categories: 0 years, 1-2 years, 3-5 years, 6-9 years, 10-12 years, 13-14 years and 15 or more years. This categorization is different from that reported for the years 1972-78. To obtain comparable data across the decade, an extrapolation was performed on the 1979-80 data. Category 0-4 years experience for 1979-80 includes categories 0, 1-2 years and 2/3 of the number reported for category 3-5 years. Category 5-9 years experience for 1979-80 includes 1/3 of the number reported for category 3-5 years, plus all those in category 6-9 years.

[b] This figure does not include 38 principals from Ouachita Parish for whom experience data were unavailable.

[b] This figure includes students in special education and kindergarten.

[c] Plaquemines Parish failed to report financial data for 1979-80. Data from 1978-79 were substituted for the missing 1979-80 data in the compilation of the totals for 1979-80.

[d] Union Parish failed to report financial data for 1982-83. Data from 1981-82 were substituted for the missing 1982-83 data in the compilation of the totals for 1982-83.

Figure 5.8 Per Pupil Expenditures and Per Capita Income Indexed to National Average: 1982-83

Source: National Center For Education Statistics

When indexed to the 1982-83 national average, most States with incomes 10 percent or more below average had an even lower index of per pupil expenditures. Seven of the 10 States with an income 10 percent or more above the average had an index of per pupil expenditures that exceeded their per capita income index number.

[a] The Bureau of Research depends on the voluntary reporting of nonpublic school data by the nonpublic schools in the districts. In some cases, these nonpublic schools may not report data, thus resulting in an undercount of nonpublic schools. In 1984-85, for example, approximately 20 nonpublic school in East Baton Rouge Parish did not report.

[b] These percent changes are from the previous year.

[c] Lafayette Parish failed to report data on nonpublic schools for 1979-80. Data from 1978-79 were substituted for the missing 1979-80 data in compilation of the total number of schools for 1979-80.

General Explanation

This is the seventh year of the Annual Statistical and Financial Report in which data, gathered from each of the 66 parish/city districts, are located in one place rather than being spread throughout the report. This format aids readers interested in researching detailed information on a particular school district(s). A Louisiana STATE SUMMARY PROFILE follows the individual district profiles and includes the same data but aggregated to the State level.

Please note that the entry NA, appearing throughout the profiles, refers to data not available from that district on that specific item.

Also, please note that percentages for several items are computer generated and because of rounding, the sum of the percentages for some of these items may equal 99.9 or 100.1, rather than 100.0.

Footnotes are also found throughout the profiles referenced A through T. Instead of repeating each footnote for every profile, the footnotes are written once in this general explanation and are as follows:

A - Student registration reflects beginning registration for all Louisiana students and first-time registration for students previously enrolled in another state. These figures do not reflect gains and losses of registered students. Districts reporting at least one nonpublic school but have no nonpublic registration data show NA's where applicable.

B, E - The Bureau of Research thanks Mr. Larry Goux of the Board of Regents' staff for supplying the projection data on school registration for 1985-89. Please note that there are no projection figures for the districts of Monroe and Bogalusa; these figures are included in the parish figures for Ouachita and Washington.

C - The total public school registration figure in the State and parish profiles for 1984-85 includes no postgraduate students.

D - The Bureau of Research depends on the voluntary reporting of nonpublic student registration by the nonpublic schools in the districts. In some cases, nonpublic schools may not report data to the local district as requested thus resulting in an undercount of nonpublic students. NAs are shown where districts reported at least one nonpublic school but reported no nonpublic student data.

E - See B above.

F - These totals include special education students (and postgraduates when applicable). NAs are shown for nonpublic memberships where districts reported at least one nonpublic school but no nonpublic students.

G - The Bureau of Research depends on the voluntary reporting of nonpublic school graduates from nonpublic schools in the districts. In some

cases, nonpublic schools may not report data thus resulting in an undercount of nonpublic graduates. NAs are shown for districts reporting at least one nonpublic school but no nonpublic graduates.

H - This data were collected from the districts by the Bureau of Student Services, Louisiana Department of Education, and compiled by the Bureau of Research.

I - Other professional/technical personnel include part-time classroom teachers, visiting teachers, curriculum specialists, guidance counselors, librarians, media specialists, physicians, nurses, dentists, dental hygienists, social workers, psychologists, student workers, and others.

J - Support staff includes office/clerical workers, teacher/library aides, crafts/trade workers, laborers, and service workers.

K - The Bureau of Research depends on the voluntary reporting of nonpublic school data by the nonpublic schools in the districts. In some cases, nonpublic schools may not report data thus resulting in an undercount in the number of nonpublic schools.

L - Actual dollar figures are reported by each local school district (Part II-A, Financial Statements, Annual Statistical Report) to the Bureau of Research.

M - The amounts indicated in the bonded indebtedness section are taken directly from the districts' Financial Statements. These statements are not derived from audited figures. Debt service amounts may be indicated as bonded debt in some instances.

N - School transportation cost data was obtained from the Louisiana Department of Education, Bureau of School Transportation, and includes data pertaining to R.S. 17:1941 et seq. Figures for average cost per student were computed by the Bureau of Research.

O - In Item 20, the districts were ranked in descending order (i.e. from the highest to the lowest) on all categories except one: the ratio of public students to teachers where the ranking was reversed.

P - Current expenditures include only instruction and support services.

Q - Only full-time classroom teachers are counted in computing this ratio.

R - This percentage is based on the number of public high school graduates from the previous year who went on to public four year institutions, private four year institutions, or junior colleges.

S - For the 1984-85 session, two ratios of teachers to administrators have been computed. The first ratio includes school administrators (principals and assistant principals) and the second ratio excludes school administrators (district office administrators only).

T - Per capita figures were not available for the districts of Monroe and Bogalusa. See per capita figures for the parishes of Ouachita and Washington.
